

Honda Contract Hire Maintenance

Stay within budget and protect your business from unexpected repair bills.

The Honda Contract Hire (HCH) maintenance package ensures that your vehicles are properly maintained. This will help you to avoid unplanned downtime, and if they do break down, you will have access to a fully inclusive breakdown package. This means roadside assistance, and if the vehicle can't be fixed at the scene, we will provide a replacement for up to 72 hours. Our technical experts will validate and authorise all repairs to make sure that your vehicles are in great condition throughout the lease.

If you choose to include our optional maintenance package, we will cover all routine work that is due to occur during the contract term (based on manufacturer guidelines and the quoted month and mile combination).

THIS WILL INCLUDE:

- All routine servicing
- Maintenance
- Repairs
- MOT
- Honda care breakdown cover
- Tyres*

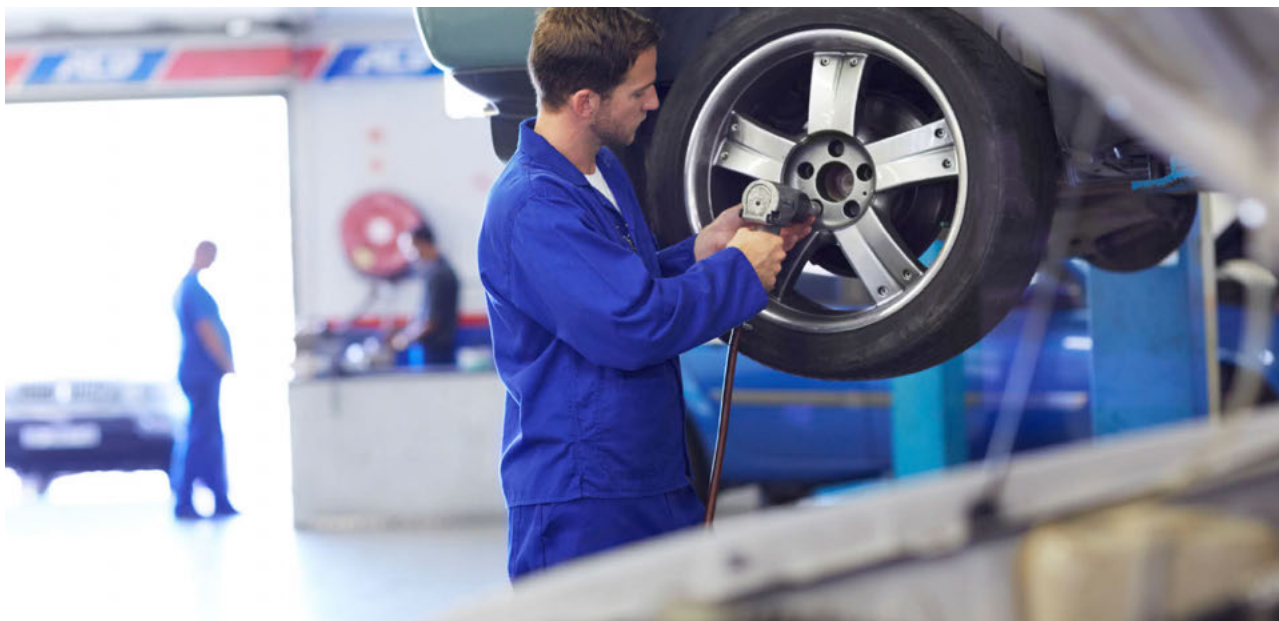

THE OPTIONAL MAINTENANCE PACKAGE DOES NOT INCLUDE:

- Glass / windscreens (although we can replace these at a competitive price)
- Accident damage
- Driver abuse items
- Damage and replacement as a result of neglect.

These charges will be billed directly to you via a vehicle services invoice if you ask us to do the work.

* Honda Contract Hire operates a "Fair play" policy on car tyres with tyres being replaced at 2mm. This means that punctures are covered and we will only recharge in the event of costs resulting from - loss, theft, vandalism and neglect or abuse. Our tyre supplier is ATS Euromaster who also operate a fleet of mobile fitters.
